CENTRAL ARIZONA PARTNERSHIP

Advocating Responsible Growth

The mission of Central Arizona Partnership is “to advocate responsible growth on behalf of those who believe in a balance between economic and ecological sustainability in Central Arizona, judicious management of natural resources and truthful examination and debate on matters of public importance relative to growth in the region.”

We try to fulfill our mission through researching issues, educating members and the general public on those issues through various media and events, and, when appropriate, engaging in activities in support of policies, practices, pursuits and initiatives that we believe will help advance the best interests of our community.

The group was established by people who have a demonstrated history in and commitment to Central Arizona. All of us are dedicated to growing CAP into a well-respected and effective organization that works to help ensure a prosperous and sustainable future for the area.

If you believe in our mission and would like to help strengthen our voice through your participation, we would invite you to apply for membership. We truly believe CAP will soon emerge as one of the region’s most influential participants in defining our future and hope that you would consider membership today.
